

NEW

**TRUECOAT 360
GEN 2 HANDHELD
SPRAYERS**

GRACO – THE BEST IN MARKET

What makes Graco TrueCoat Handheld Sprayers stand out from the crowd:

Airless Technology via a Stainless Steel Piston Pump:

- Finishes projects faster
- Delivers high pressure power with no paint thinning necessary
- Provides an excellent finish with less spitting

Vacuum VacuValve Technology:

- Squeeze out all the air to spray in any direction including upside down to tackle those hard to get to places
- FlexLiner Bags allow fast cleanup - simply recycle or reuse

Sprays at all angles

No thinning required

Fast to apply

Great finish

And it's just got a whole lot better ...

GRACO **NEW** TRUECOAT 360 GEN 2 SPRAYERS

TRUEQUALITY - Improved technology for a **GREAT FINISH**

TRUESPEED - The fastest way to finish with **ONE-PASS COVERAGE** spraying in all directions

TRUECONTROL - Spray coating **UNTHINNED** with Low Pressure TRU Airless tips for **LESS OVERSPRAY**

An ideal handheld sprayer for painting small projects (less than 8 Litres) such as doors, trim, interior walls, outdoor furniture, garage doors and fences

- No other DIY Handheld matches the TrueCoat 360 Gen 2's ability to spray in any direction with the patented FlexLiner system.
- Graco technology means Homeowners get a great finish, whilst finishing the job faster, with the easiest setup and cleaning.

THE GEN 2 DIFFERENCE:

NEW Spray Tips:

- Low pressure technology for improved spray quality and reduction of chatter
- More sizes to suit more applications
 - 2 Paint LP Tips: Blue .015" Narrow & Wide
 - 2 Stain tips: Green .011" Narrow & Wide

NEW Guard:

- Redesigned Tip Guard to minimise paint buildup

NEW Funnel, Integrated Filter and Inlet Filter:

- NEW Funnel with Integrated Strainer makes straining paint a whole lot easier and cleaner. Two different size Inlet Filters are available to match the application and colour coded to match the paint tips.
 - 60 mesh filter: Blue to color-match the paint tips
 - 100 mesh filter: Dark green to color-match the stain tips

Design Changes:

- Redesigned Piston/Cylinder to provide more control with each spray pass and a higher quality finish even at faster spraying speeds
- Replaced poppet with a ball check and updated cleanshot design for even greater durability

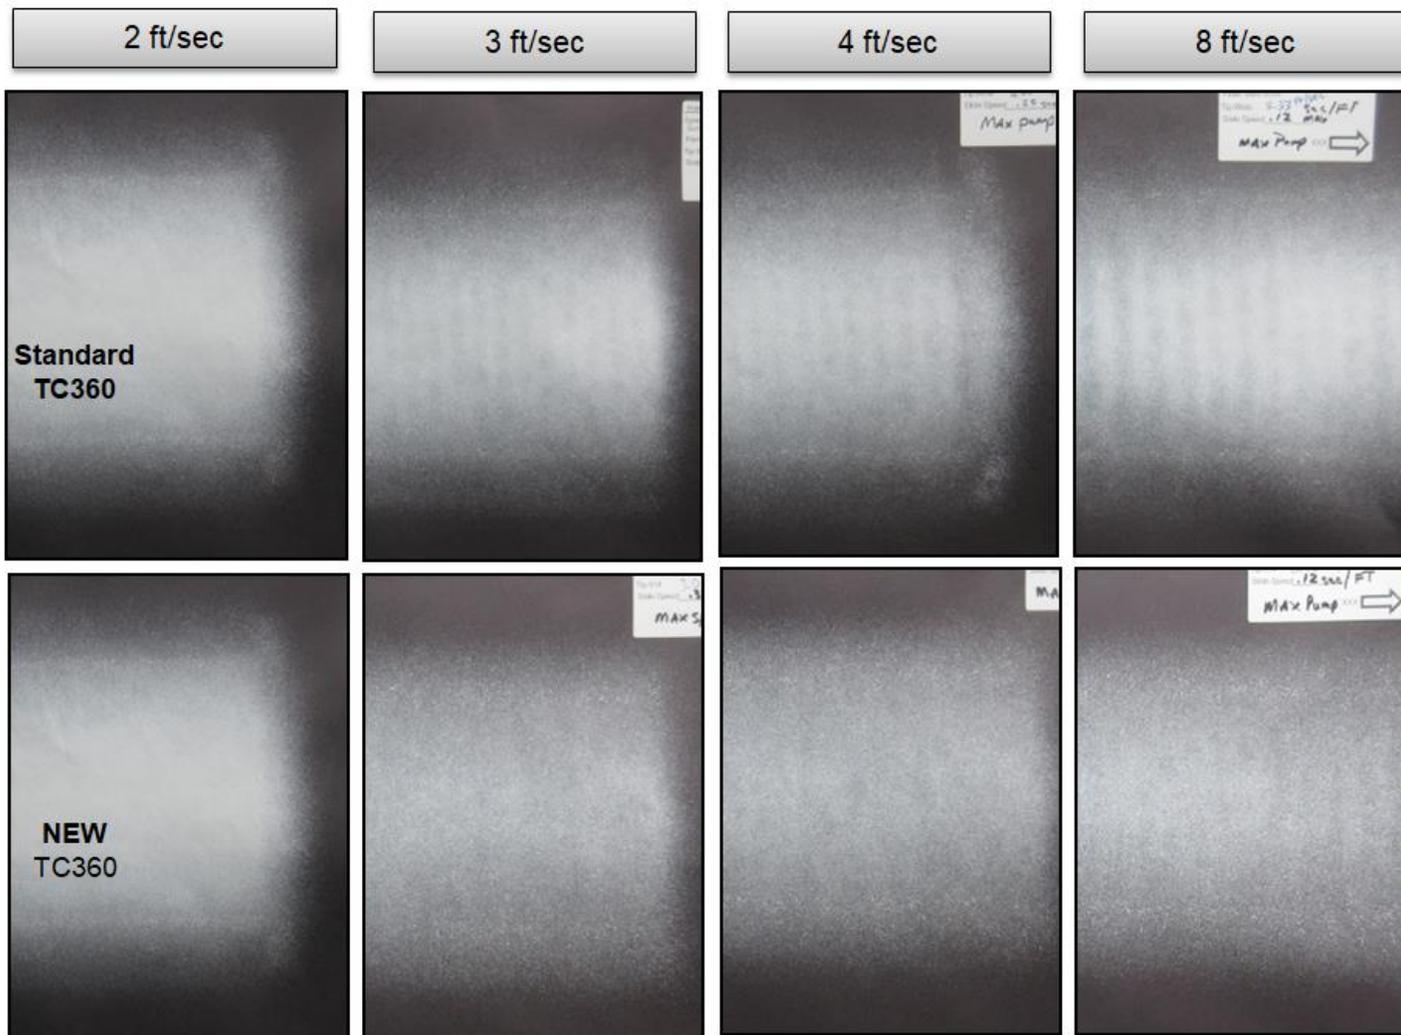

Other Improvements:

- QR Codes: Linking customers to support materials
- Videos: Six videos online to help customers get started
- Quick guide: Simpler, easier to use instructions
- Clamshell Packaging: All models use the blue base/ gray overmould clamshells
- New branding labels: Tip hang tag, POP boxes, manuals for easier identification

THE RESULTS

PAINT SPRAY COMPARISONS, VARIOUS HAND SPEEDS

THE RESULTS

STAIN APPLICATION COMPARISON

Standard TC360

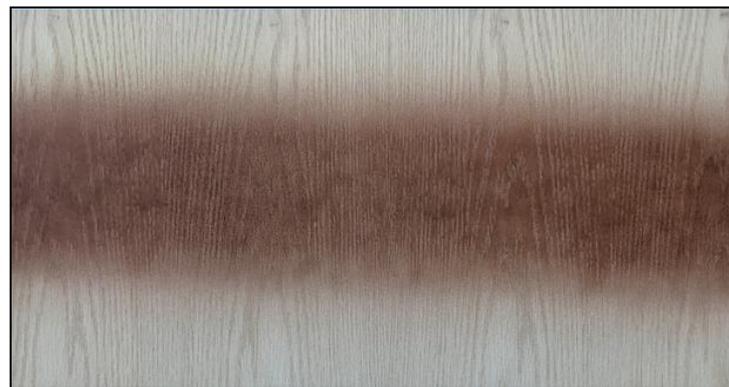

- Narrow tip (316): Very difficult to find optimum hand-speed to achieve a good pattern (*patterns below*)
- Wide tip (519): Even more difficult with stain.

Upgraded TC360

Two optimised stain tip widths available:

- .011", Narrow & Wide for a variety of applications
- Great atomisation in stain (*pattern below is 311*)
